## WinPC-NC function matrix

From version 2 on WinPC-NC is available in three different variants

Light Low cost solution for CNC beginners with direct LPT printer port controlling. Able to run

typical applications like engraving, milling of modelling parts, PCB drilling and more.

**Economy**Control program with direct LPT printer port output and enhanced functions like tangentional cutting, fully 3D abilities, mass production support, more import filters for common NC

formats, free definable macros, synchronisation with external signals and more

**Professional** Full functional CNC control program with external axes controller cpu for all realtime tasks.

Absolute reliable and stable for industrial applications and enhancable with optional peripheral modules like teachin keypad, 24V input/output signals, signal conditioner and converters. Special technological functions for laser cutting, automatic tool changer,

digitizing sensor and much more.

	Light	Economy	Professional
Input/output signals and machine controlling			
Controlling the CNC machine	LPT (LPT1)	LPT (LPT1+LPT2)	serial axes controller
Input signals for limit and homing switches	5	10	up to 256
Additional outputs for drilling spindle, cooling, dispensing and more	4	8	up to 256
Motor currency, running signal, boost signal	<b>√</b>	<b>✓</b>	<b>√</b>
Inputs/outputs freely definable and assingable	<b>√</b>	✓	<b>√</b>
Industrial conform 24V signals	-	-	✓
Converters and adapters for clock/direction signals	-	-	✓
Analoge output 0-10V for spindle speed	-	8Bit/LPT2 - PWM	0-10V
Ready signal for safety control, toggle output >200Hz	<b>√</b>	<b>√</b>	✓
Realtime ability with Windows	good	good	best
Dependant from background programs and processes under Windows	yes	yes	no
Maximum step rate (kHz)	12	24	40
Controlled axes	3 (XYZ)	4 (XYZ TABC)	4 (XYZ TABCU)
Hardware and operating system requirements			
Runs with Windows versions	2000/XP	2000/XP	all from Win95
Processor and clock frequency	Pentium/Athlon Celeron/Sempron >1GHz	Pentium/Athlon Celeron/Sempron >1GHz	from Pentium 2 with 266 MHz
Peripheral ports (onboard or ISA/PCI board)	LPT	LPT and USB	COM or USB- to-COM adapter
Parameter settings, adjustments to mechanical components			
Individual axes resolutions, steps and distance/revolution	<b>√</b>	<b>√</b>	<b>√</b>
Speeds, acceleration and deceleration ramps for each axis	<b>√</b>	<b>√</b>	<b>√</b>
Testing functions for mechanics and switches, motor tuning	<b>√</b>	<b>√</b>	<b>√</b>
Backlash compensation	-	<b>√</b>	<b>√</b>
Several predefined ramp profiles	-	<b>/</b>	<b>√</b>
Synchronisation to different input signals	-	<b>/</b>	<b>√</b>
Loadable individual created ramp profiles	-	-	<b>√</b>
Data formats and import filters			
HPGL, PLT	<b>√</b>	<b>√</b>	<b>√</b>
Common drilling formats, Excellon, Sieb&Meyer	<b>√</b>	<b>√</b>	<b>V</b>
G codes with subroutines and abs./rel. movements	-	<b>/</b>	<b>V</b>
Multicam 2D and 3D, extended HPGL	-	✓	<b>√</b>
ISEL NCP	-	, ,	· ✓
Postscript, vector informations, EPS/AI	-	J	J

Intelligent look ahead for smooth movements without interruption  Jintegrated editor for creating and modifying NC files  Wulti lingual, (ger, eng., fra, ita, esp., por, turk, pol available)  Graphical display, zooming, turning and mirroring of data  Works with NC files in unlimited size  Machine positioning simply to a mouse click  Manual movements step by step or per defined distance  File origin and parking positions definable by teachin  Different tool parameters to each color or tool  Tool change switchable or simulation  Ventionable dwell times at tool movements  Valorinable dwell times at tool movements  Valorinable differed maximum tool depth  Automatic reload for NC file at modifications  Save last positions when working without homing switches  Ventionation of moving buttons swichable to adjust to machine  Vontour smoothing function for perfect edges  Vool file for Z axis, savety clearance for rapes  Vool file for Z axis, savety clearance for rapes  Automatic scaling factors for each axis  Special display at jobs  Valoring and turning NC data  Realtime job display at jobs  Valoring and turning NC data  Realtime job display at jobs  Valoring and turning NC data  Valoring and tur
